Customer Reviews

A lovely little ’pocket’ book to carry. There are some rules to follow, such as being modest around your Guardian Angel, that seem like common sense type of manners. However, for the first few days after reading this, I was embarassed to get into the shower without verbally asking my Guardian Angel to please leave the room! This is especially good for those of us who have forgotten any/and or all of what we were taught as small children AND to read with our own children while they are young or older. I think this would make a lovely gift for anyone. There is also an extensive listing in the back of the booklet for advanced reading. I would and will purchase more copies of this booklet.

Learned a lot. Love this book----helps one feel the angelic realm. Puts you in touch with the great blessing of our individually assigned earthly guardians. It will inspire you to talk to your very own angel who has been with you for life.

This little paperback is a very endearing read we all have guardian angels who are with us all our

lives and care about our well being and we as human beings need to acknowledge them in a loving way for they are truly a gift from God!

I have never found this book anywhere else. It has the most unique and legitimate information. I am totally fascinated. My last one was burned in a fire. Best book on the angels from first hand experience. It is a treasure!

I love how it clearly explains all the ways your guardian angel is there for you. There are beautiful prayers at the end of the book.

The book was fine. I was looking for a catholic book on angels and this met the bill. I found a lot of books that were new age and groundless.

a very informative booklet written by someone with a great faith.

very informative about angles/ their names an jobs..... recommend to the beginner
