Pamela Hill Nettleton is a Capstone Press author. --This text refers to an out of print or unavailable edition of this title.

Very informative. I bought it however for my preschool class and it is definitely more advanced than that age level. I'd recommend this more for 1-2 grade level students.

Used for a preschool lesson on the 5 senses, and was a hit with my 4 year olds! It's a little wordy, but at their age they sat through it just fine.

While this book is a little advanced for my PPCD students, we did use it a bit. We just went over the pages that went with sense we were exploring that day. My friend who teaches Life Skills borrowed

it and said it was great for her students - 1st - 5th graders with Special Needs.It is a great non-fiction resource for any elementary teacher’s personal library.

Very easy for kids to relate to this introduction to the senses. Can’t wait to use it with my kindergarten class this fall.

I bought this to go with a kindergarten unit on the 5 senses, and it was okay.

this was a great book to teach about the five senses

Perfect for teaching senses and very factual
