Just finished listening to "Doctor Who #186 - Tomb Ship" released by Big Finish Productions. Spoilers ahead...The Fifth Doctor and Nyssa arrive at what first appears to be one of those dank and dark tunnels the TARDIS occassionally lands in - after a while, the Doctor, whatever his incarnation, will have to admit that his companions are right - you've seen one, you've seen them all, just different experiences in different times.This time the TARDIS has landed inside a tomb ship of one of the God-Kings of the Arrit - a civilzation so advanced from near the beginning of the universe that had the Arrit not gone extinct that they would have mastered time and space travel long before the Time Lords had done so the Fifth Doctor says.Yet, prior to the Doctor's and Nyssa's arrival on the tomb ship, a family of tob raiders had arrived led by Virna - a rather nasty piece of motherhood who is willing to sacrifice all of her children for what she believes is the greatest treasure of the known universe.Pity Virna didn't brush up on her ancient Arrit history since death is the greatest treasure to the Arrit and the tomb ship is riddled with nasty death traps designed to test the intelligence and worthiness of those who would seek the God-King's inner most chamber.Help does arrive for the Doctor and Nyssa in the form of a rather unexpected stowaway in the TARDIS, who promises to make life very interesting for the Doctor and Nyssa, if they all manage to survive.Nyssa doesn't seem to like this new companion.Great fun! Really Tense Adventure!Five Stars!
