Customer Reviews

Have you ever started an activity as a child and never finished only to spend the next year's even into adulthood wishing you had gone further with it? I did until I ran into this book online browsing one day...it was the next level up from where I had left off and I figured I'd give it a shot. I'm so glad I did! I never could've imagined that teaching myself to play could be so easy! I loved the variety of music introduced. I liked the fun and well known songs like Comedians Dance, Hokey Pokey, and America the Beautiful (because what's more motivating than having your kids applaud and dance around singing while you play lol?) but I also enjoyed the more classical Swinging Sevenths, Mussette, and Harmonic Minor Scales in Parallel Motion. As an added bonus, there is a certificate of completion added on the last page to help you celebrate your accomplishments. This book helped me easily pursue enhancing my musical talents as well as renewing my passion for playing and I'll definitely stick with Alfred's lesson books as I continue onto the next levels.

Great product. Thank you!

My daughter has really enjoyed these books. She spends lots of time using them to continue growing and becoming more and more advanced.

I use the Alfred's series with my piano students. They are solid in terms of building on skills step by step. The students like many of the songs included and there is a great variety of types of music. We all like the cartoons and bits of humor included. I think this is the best series available for beginners. I think the previous reviewer had a misunderstanding...this IS book 4 after all, a beginner should start with Book 1! (Alfred's also has a series for adults, and one for littler kids.)

Came when expected and packaged well and came as promised and matched the pictures exactly as shown.

The music is just so FUN to play!

Great for piano students.
