Why didn't I discover these books before?!I have been teaching middle school band for 10 years now. This is the first year I have used these books. My students love the content. The pedagogy is solid and easy for beginners to understand. It is so much easier to get my students to practice because they love the songs. Many current, well-known middle school composers are featured in this book. The teacher's edition comes with several extra lessons to reinforce musical concepts.The only thing I would change would be the cd. Each song has an intro before the students play along.

Not every intro is easy enough for a beginner to catch.

Since this brilliant series is going out of print, we figured we'd better get this before it was gone. The book was wrapped/packed well with no signs of wear and tear.

It was exactly what I needed, and arrived a day earlier than I expected.

Good beginner book for trumpet.
