Synopsis

Shortlisted for the Costume Society of America Millia Davenport Publication Award (2016), this lavishly illustrated book looks at the history of fashion from 1850 to 2010. Taking a decade-by-decade approach, Daniel James Cole and Nancy Deihl explore the history of fashion as a lively and dynamic manifestation of twentieth-century culture. Covering chronological changes in womenswear, menswear, and childrenswear, the book looks at the dissemination of style and the mechanisms of change, at the relationship between fashion and the visual, applied, and performing arts, the intertwined relationship between fashion and popular culture, the impact of new materials and technology, and the growing globalization of style. Illustrated with photographs of costume from museums and images from the fashion press including editorial photography, illustrations, and advertising, the book will include insights into icons of fashion and the clothes worn by "real people", providing a valuable visual reference for the reader.

My favorite coffee table book that I’m actually reading. When this arrived it was like getting a Christmas gift. It is page after page of luscious photos and drawings of fashion dating back to the 1850’s and filled with fascinating details behind the clothing. This is a book to be treasured...
