Customer Reviews

This is a beautiful book. It has a lovely selection of artists from the Golden Age through Now. This includes some unusual Comics Calvacade covers, the powerless White Go-Go Outfit era, a Lynda Carter, SuperFriends, and many iconic covers. Some may seem a bit dark or complicated at first for coloring, but most are very good selections for pencils, from simple to challenging spaces.(Please note that I referred to pencils. Just like most these current coloring books, they are not suited well for wax crayons - sadly, since I love my crayons. If you are old enough to remember Doodle-Art from decades ago, yes, you could use markers, but just like before, the ink will bleed through and effect the artwork on the other side of the page, so I would not advise it.)Best part for those of us who are comic book fans, the art is clearly identified! FINALLY someone gets it right!On the last

page, you will find not just the name of the artist who created the original, but also the year and source. Thank you for acknowledging the work, guys!For those who are fans (or vehemently not) or the Wonder Woman/Superman pairing, of the 90 or so pages, 6 (and a half, kinda - you'll know when you see it) are of this paring. Additionally, there are two are from classic Superman/Wonder Woman fights! And one appears to be after Harley Quinn has kissed Wonder Woman.I am looking forward to getting more of these, including the upcoming Batgirl Coloring Book!

I was thrilled to get this in the mail today! I was even more excited to flip through the amazing decades-spanning line art ..... Until I found the first (of many) pages with smoochy scenes from DC's New 52 Superman/Wonder Woman romance. Why DC? WHY? This is a Wonder Woman coloring book. WONDER WOMAN. If, like me, you're repulsed by DC's recent editorial decision to pair Diana up with Superman, you're likely to be pretty disappointed with like a 1/4 of these coloring pages. I really wish I'd been forewarned.However, the book is well designed and has a fun range of art styles and lots of dynamic scenes to color. So if Supes/Wondy doesn't bother you at all, (we might not be able to be friends, but) you'll probably love this coloring book.

This book contains a wide variety of beautiful Wonder Woman images at various points of her career, from when she was first created in 1941 to today. It therefore also serves well as a fantastic compilation, pinpointing the highlights of her illustrious adventures.Ideal for all true Wonder Woman fans!BTW You may be tempted to buy 2 copies: one to colour and one to leave be (to appreciate the elegant simplicity of black and white)

Wide variety of interpretations of Wonder Woman for you to color-worth the try but loss of one star because the pictures are on both sides of the page so markers are out- and there is already some black ink filled in these pictures instead of just straight line work as it should be. Still enjoyable because of the variety of the art work but could have done without the black fill-in done for you if they had printed the pictures on one side of the paper only- you could have used your markers.

Got this for my niece, who loves wonderwoman. Only after did I realise it was an adult coloring book. Still worked great and my niece loves coloring in it with her Dad who is a huge comic book fan. The pictures, the ones I saw, all looked like they were straight out of the comic. All in all awesome and I recommend for a comic book lover in your life.

This coloring book has great art by various artists. It was a gift for a friend, but I may have to buy one for myself.

It is perfect! I love every single picture and plan on coloring the entire book! High quality drawings, and even just the feel of the book is really nice.

not what I expected but daughter liked it
