Craft designer and teacher Roz Fulcher has created art that’s appeared in Highlights magazine, Reader’s Digest, and books by major publishers. Her other DoverÃ Â books include two Be Good to Your Body titles, Healthy Eating, and Learning Yoga, as well as Science Around the House and Mind Your Manners.

Great little books for little hands. I bought these for my younger French class and they loved it! The book has the phrase in English, French and then a little "cheat" underneath that tells you how to pronounce it phonetically, which the parents were most grateful for.

I love these little books. Yes, they are small but they are a dollar-fifty to two bucks. Great purse and travel books to keep a kid busy, or, the reason I bought this - a little fun thing to go along with school

stuff.

Small book about the size of a woman’s hand. 62 pages to color and write in. It has Pronunciation below each french phrase, making it easier to say, along with english translation at bottom. It covers numbers, colors, days of the week, months of the year, and many commonly used phrases. It’s a good book for the price. Only downside is it’s size.

Nice for kids. An entertainign way to get my kids (who already talk english and spanish) to learn french. Still needs some adult tutors to help and the size of the book is not huge, but we like it. The kids will have it for Christmas, so not much I can comment yet on how well it was received by them.

My 5-yr old is enrolled in a French program and she really loves this book. Each page shows a short conversation in both French and English, with a related picture to color. It is small, however. Could fit in a pocket. Would be a good take-along activity.

This is clever little book that you can tuck into a pocket or purse and color on the go! It is a good reinforcement tool or as a way to start building a rudimentary French vocabulary. It is as exactly as described - easy, basic French phrases.

This is exactly what I wanted something simple and engaging. My ONLY complaint is the book is tiny. The description is accurate so not their fault but I wanted to make copies of the pages for my kids and its just too small.

I didn’t pay attention to the reviews or dimensions or anything before purchasing - but it’s teeny tiny. It’s closer to hand-sized than 8.5x11 sized. :) Oops, my bad.
