Customer Reviews

Yes, I love this easy coloring book. Very relaxing, unlike most of the other coloring books where the pictures are way to small for me to see and very stressful to try and color them

I’ve bought this book twice. I like large spaces to color (I’m not very good at small detail, and more importantly, it doesn’t relax me in the slightest), and these drawings are perfect for people like me. Using my Ohuhu pencils, which are on the waxy, smooth side with wider contact points on the paper, this book has given me hours of stress relief after the craziness of my day job. Highly recommended for the largely untalented colorist. :-)After I’ve collected a stack of them and admired my handiwork for a while, I cut them up into quarters. They’re super-handy as scratch pad paper for notes and shopping lists.

I have recently discovered the relaxing, meditative quality that coloring provides. But the intricate images with many small spaces became too overwhelming and defeated the purpose. I gave it up. I decided to look for more simple designs that also provide some challenge and satisfaction. This is it!! The designs are interesting and are set up so that you have a choice of using colors to make a symmetrical design or be more random-depending on your mood. These are so much fun, relaxing and also are not time-consuming so that you can take a mini color meditation break. I allow myself to be totally immersed in the process and can return to the daily task at hand feeling more energized. This is just what I wanted. Could not be more pleased. Keep in mind that I do meditate regularly and try to use activitiesÃƒÂ¢Ã â ¬Ã â as a way to enhance my practice.

This is a decently simple but not childish adult based coloring book. Though the pages are not perforated the images are printed on just one side of each page which cuts down on the chance of bleed-through. The paper is high quality and rather shiny stock so you could use markers along with pencils and crayons or even water colors. Though I suggest using something, we use the back cover of an older, completed, coloring book, to back each page when using something wet like markers or water colors. While not crazy complex each design is fun to do and interesting enough to be engaging and fun. Well worth the money.

I bought this for my 73 year old mom, who became discouraged when coloring normal adult books as she found them too detailed. The pictures are easy to see and large enough to not have to have a super steady hand to color in a tiny line. My mom really likes this book and I’ve even colored a few pages on visits. The pages are thick and the pictures are interesting to color.I wish there were more of these available.

Love it!! It does not have perforated pages but I love copying the pages to do over and over again! I

have been experimenting with my chameleon pens with this book and I love the affect. I have to copy page to color due to thin pages and the chameleon pens bleeding thru.

These are great for seniors or for anyone that just wants easy coloring. With seniors, I use Egg-oh hand grips with Crayola markers and a whole world is opened up for them, even with arthritis.

Perfect for my mom who has Alzheimer's. Most of the adult coloring books have such tiny spaces that frustrate her. She loves to color and these type books work great!
