Synopsis

Virginia Woolf started to write a biography of Elizabeth Barrett Browning's spaniel after finishing The Waves, tracing the life of the spaniel from his country origins, his puppyhood spent with the writer Mary Mitford, through his sheltered existence with Elizabeth Barrett in her sick room, and later travels in Florence. But Flush is much more than a playful writer's holiday. Woolf explores class and gender in Victorian London, with gently mocking humor. Charming yet also radical, Flush is a work of sensuous imagination.

Virginia Woolf (1882-1941) was born in London, the daughter of Sir Leslie Stephen, first editor of the Dictionary of National Biography. From 1915 when she published her first novel, The Voyage Out, Woolf maintained an astonishing output of fiction, literary criticism, essays, and biography. In 1912 she married Leonard Woolf, and in 1917 they founded the Hogarth Press. Woolf suffered a series of mental breakdowns throughout her life, and on March 28, 1941, she committed suicide.

The biography of Elizabeth Barrett Browning's cocker spaniel -- not a profound work of literature, but very sweet and great fun to read. Dog fans, animal fans and Browning fans will love it.

Flush: A Biography by Virginia WoolfThis is a richly detailed work of imagination by one of the great literary minds of the 20th century. This is the kind of book you'll want to recommend to all your friends.

This was the perfect reading for a vacation, particularly because my kindle is so light to travel with and Virginia Woolf was an amazing writer.

This is a small booklet which reveals Woolf's nostalgia for a lost Victorian Age which she ironizes upon but certainly misses. Some pages could have been written by Dickens (see the description of the rookeries). Interesting book

You realise why V. Woolf is an acclaimed writer. She managed to write a lovely novel based on the life of a dog. Wonderful and very appropriate if you are looking forward to having an easy and lovely time.
