Customer Reviews

I read this out of curiosity. I have a CPA on my team now and wanted to gain a better appreciation for that achievement. I believe this book is a good guide for any tests that involve hours of test taking to gain an accreditation. Many of these techniques were helpful with passing my PMP certification on the first try as well.

A nice, quick read. Helpful advice on how to plan and prepare for the exam.

It was okay

Love it

Much of the advice that was included seems to be obvious information, and the author didn't take the exam as it exists today.

Smaller book then I expected but good information

I received this in the mail today (Sunday delivery!). I read it in about 5 minutes. The book is utterly worthless.A waste of money and five minutes.

Nothing really worthwhile
