Synopsis

Kids will have fun learning about every U.S. state in this amazing atlas, packed with maps, stats, facts, and pictures. National Geographic's world-renowned cartographers have paired up with education experts to create maps of the 50 states, U.S. territories, and Washington, D.C., that pinpoint the physical features, capitals, and towns and cities of each state. Discover the latest data and trends along with colorful photography of each state and the people who live there. Ã Â Key points reflect the latest information about land and water, people, and places. Lively essays cover each region of the country. Eight specially themed maps on nature, population, energy, climate, and more, delve deeper into key issues. State birds and state flags add to the high visual interest. This is a great reference for home and school with all the basics kids need to know to succeed in middle school, high school, and beyond.

Customer Reviews

Included in this new U.S. atlas are maps of all the states in two-page spreads, plus their flags; fact boxes (population, area, largest city and capital, main industry and agriculture, statehood); and interesting Ã¢â ¬Å“Geo WhizÃ¢â ¬Â• tidbits, such as Ã¢â ¬Å“Ã¢â ¬â„¢Happy BirthdayÃ¢â ¬â„¢ . . . was the creation of two Louisville sisters in 1893.Ã¢â ¬Â• Symbols on maps indicate where there

is fishing, poultry, wheat, food processing, electrical equipment, and about 55 other economic categories. Arrangement is alphabetical within five geographic areas, and there are also a few pages on U.S. territories. At this price point, libraries should also consider circulating copies. An attractive, inexpensive student atlas, good for browsing and quick reference. Grades 3-6. --Susan Gooden --This text refers to the Library Binding edition.

NATIONAL GEOGRAPHIC KIDS inspires young adventurers to explore the world through award-winning magazines, books, website, apps, games, toys, television series and events and is the only kids brand with a world-class scientific organization at its core.

My grandson loves maps. I'm teaching him where all our family lives. He loves this informative and well done book

We really like this and use it in our homeschool studies.It is a great starting point for talking about each state.It's a little much for my 2nd grader, but the older kids will like it.

As always, yet another quality product from National Geographic. Describes each state in a format that is easy to remember, yet fun to read. A must for all students of US geography at any age.

Grandson, seven, loves its contents; very well done for children.

I have to keep buying these one at a time, which is really annoying. They are wonderful atlases and I need a classroom set for my second graders.

Full of so much interesting information. I got this for my 6 year old nephew, but the adults are loving reading through this atlas learning about each state!

Fun book for learning. We use this as a part of our homeschooling.

We'll put together but not as informative as I would have liked. Still fun and education. Great for a beginner.
