Who is Paul Noble?Paul Noble is a genius, yet he still left school unable to speak a language - he found that the traditional learning methods left him feeling `confused, incapable and unable to really say anything'. Determined that there must be a better way to learn, Paul spent years devising his own unique method of learning languages which cuts out all of the grammar, all of the rote learning, and all of the stress. He began using his method to teach in his Language Institute and, hundreds of

students later, he prides himself on never having had a student fail.
