Mark Danna is a full-time veteran puzzlemaker. He is the writer of the syndicated newspaper puzzle Wordy Gurdy, author of 16 word search books, a former Associate Editor of Games magazine, and a member of American Mensa(r).

I ordered this book because I am going on a trip and a spiral-bound book is much easier to hold in your lap - you can fold it back on itself. EXCEPT this book has the clues on one page and the puzzle on the facing page. You can't fold it back, because then you can't read the clues. And because it is spiral-bound, it's even harder to hold open in your lap than a regular book. Unless you want to sit at a desk or at the kitchen table to do your puzzles, this book is a pain in the neck. Given the design, I can't imagine why they thought making it spiral-bound was a plus.

I bought this book for my 93 year old dad, sharp as a tack, who loves to do crossword puzzles. His eyesight isn't as good as it used to be, but this large print is very easy to read. He enjoys these large print versions so much I have purchased several others for him. Some of the puzzles are very easy and he whips right through them. Others are more challenging and he really has to think. I think he loves the mixture of easy and challenging.

When they say 'large print' they really mean it! This will be perfect for my 84 year old grandmother who enjoys crossword puzzles to pass the time.

Would suggest that some more difficult puzzles be included. These would serve to challenge the more sophisticated puzzle fan toward the end of the book.

Dad loved them for Christmas gift. He thinks it helps with the larger print.Would certainly purchase like items again.

The print size was great; the spiral bound book made it easy to use; but the more difficult puzzles used a lot of really strange references.

This book contains made up words, names of near celebrities, and words in both French and English. It seemed as if the book was designed for people in Britain.

This was purchased as a gift for my mother. I looked throught it, and I am pleased with the quality of the pages as well as the difficulty of the puzzles. I know that she will enjoy it.
