Very, very basic. You could probably find comparable sheet music online free. Nice selection of tunes. Would recommend only for an absolute beginner.

This is not a good book. LOOK AT THE PHOTO! The mouthpiece is upside down. It references an eighth note, as "eight" note. As a teacher of beginning band students, please stay away from this book. I'm not sure if its the publisher or editor that messed up, but this book is no good. The tunes are also little difficult to read, due to the way they were notated. My other thought with this book is that it might be a translation issue. I believe you can order this in a couple different languages.

It will serve as a good stepping stone for a beginner trying to read, or in my case someone intermediate who is trying to improve sight reading. I am a jazz guy, so most of these tunes seem to be the overused classical songs but are fun and memorable to practice and also have some nice shapes to tweak for soloing.

The book does deliver easy versions of classical songs. It would if the book didn't duplicate songs for E Flat and B Flat instruments. To me that is a waste. It would be better if the songs were not key specific with a user understanding that this is for developing note reading which is what I use it for.It is a good buy and there are definitely benefits for this book. Long as you are aware of what you will be getting.

I am capable to play simple songs, but still, I found most songs in this book are too short, mostly only one page. Plays just like some highlights of each song, quite disappointed for what paid for.

I got this book for my daughter. She already knew how to play the flute and clarinet and just got a saxophone, so she needed some music to play. This is great for a first or second year student.

This is a good book for beginners. It encourages practice and helps prepare them to perform. I require my students to choose one piece and perfect it before moving on.

Obviously there once was a CD because the stub of the CD pocket was still in the songbook. But there was no CD.
