## Customer Reviews

I literally had tears well up in my eyes when I first flipped through this book. You will see the most gorgeous settings that will touch your heart. An antique shop shared this book with me and I immediately purchased it off . It is a timeless masterpiece that you'll be happy to look through time and time again.

Nice to flip through the pictures and imagine yourself in a bygone era of formal dining - maybe Downton Abbey?

This is exactly what I wanted. Shows beautiful silver.

I wish I could give this book more than 5 stars. It is an absolutely gorgeous book for anybody interested in table settings of the most elegant kind. As well as spectacular photography of the most sumptuous crystal and china, the text is fascinating as it explains the history of table settings and of individual antiques.As a person who is particularly interested in mixing and matching colored crystal

and different china patterns on the table, I have found it to be of immense help and has given me even more courage to blend different styles together.I will treasure this book forever.

I am a china and silver collector. and this book shows unique and clever ways to use your antique pieces. Great photographs. I also have the sister book 'Modern Antiques for the Table'. Explains the different periods of design and how to set a unique, classy table. Fun and beautiful book.

Great book. I wish seller had sent a receipt because this is a gift for a client.
