Customer Reviews

Not the best in the series but still terrific! Looking at the other reviews I will leave the politics of religion out of this even though it is about religion. The characters are wonderful and even the ones I hate I love how they fill their parts. Dramatic audio on CD is really a terrific thing and I will look for more made like this. If you have not listened to the first audio books in this series you really should start at the beginning. Remember to get only the Dramatic audio versions!

Great! The entire series is wonderful. The authors had to have a special inspiration from God in putting together the details. I listened to this about 6 years ago and again this month--today, I can see the progression of earth’s events--just as depicted in the audio. One suggestion: would like to have had musical effects and sound better balanced--small parts were barely audible others overwhelming. Overall...I would definitely recommend it--and would listen again!

Thank You

The sound and drama presentations are very loud and difficult to listin to is a car. Hadto constantly change the volume up or down to be able to follow the story line.

Case in bad condition but cds appear to be ok
