Great fake book for the individual that likes to play from a lead sheet. Some keys are difficult but it is easy to transpose up or down to something easier to play if need be.

I ordered this book for Southern Gospel songs which I play at my church. This has been a great resource and I have found some songs that are very hard to find. I play chords and it was very easy to read the chords and I found it so refreshing that they were not too small for these old eyes to see.

Decent, not all the songs I expected but quite a few that I didn’t

The book is great. The comb binding didn’t hold up in the mail too good and it was damaged, but still useable. Thanks.

These are nice books for our choir. A lot of songs in one book and good old hymns with southern gospel. The only thing that would make it better is if the books had lower notes.

Love it am excited to play all my favorites!!!!

Great songs. They were songs I knew and loved.

A good music book, very helpfull to inspire organ playing, and making own arrangements and inprovisations.The only thing I've to do is looking up the suitable cords, but with some fantasy it can be an success!
