Love it!!! ÃƒÂ Ã Å¸Ã Å Ã Æ’

Three stars because it’s my own fault I paid for this. I can’t believe this book is being sold for $6, honestly. When I saw the word "stencils," I imagined something easier than a sheet of paper with a printed face for you to cut out with scissors, since, y’know, you can print anything off of Google images and cut it out for free. This book is just a collection of generic pumpkin faces on regular paper that you’ll cut the eyes and mouth out of to trace onto your pumpkin. There’s nothing unique about the designs in the book, and you can find something immensely better just by utilizing Google. I was thinking I was buying a book with perforated rip lines, unique facial drawing, something to make it worth the money but no. That’s what I get for buying on impulse, I guess.

Excellent!
