Synopsis

Sanakan attempts to destroy the Central A.I., as Mensab and her guardian knight, Seu, fight for the lives of the human residents they promised to protect. After the Central A.I. recklessly attempts to forward the whole of TOHA Heavy Industries, Kyrii and Cibo are left with a precious genetic sample from a very old human being. Wanting to test the genetic sample for signs of the Net Terminal Gene, Kyrii and Cibo make their way through an unofficial megastructureÃ¢â ¬Â¦

Customer Reviews

Nihei’s classic work really moves forward in this volume. The artwork and archetecture are superb and you get a bit more story. This will be a volume you want to sit and read in one go dur to the action but take the time to pick up on the little story and back story elements.

Great atmospheric environments and neat body horror designs, can be confusing to understand sometimes both visually and plot wise thou.

Every page is a piece of art. It opens up your imagination and pulls you into the story

I love Blame. It’s great 10/10 IGN

Aged to perfection, like a good wine or whiskey, still the best manga I have read in 15 years.This is a must read and own series.

This review is for the kindle version. I have the Master’s Edition books in Japanese and I’m collecting the English versions as well AND I’m also purchasing them through kindle. The story and the quality of these books is 5 stars. My only gripe with this volume (vol.4) is that it doesn’t have the cinematic reading function that the first 3 volumes have, where you can zoom in to each panel and transition between panels. It’s great for this book because the layouts are very boxy and you don’t end up missing some of the art like with other books. Anyway, I hope they update this and add that function. It’s been useful reading it that way while I’m commuting on the train to work.

Previous three volumes had guided view, why not this one? Also has a distracting black bar at the top and bottom of all pages.
