Customer Reviews

CYNTHIA JOHNSON has more than 20 years of experience in writing and editing test-prep guides.

This book has a number of typos in the practice exams! It didn't bother me much when I thought it was just regarding answer choices, those were easy enough to fix, they put a in the check and b in the explanation and so on, but upon further review I realized they had dates of some Acts wrong in

the history section! Clearly not good! Not the thing you want to realize a few days before the test. Thankfully I have the cliff notes guide as well!

This book had so many typos, mistakes, and flat out wrong information that I am actually a little bit scared to take this test. I do not recommend this book.

A very good starter to condition my mind to study further and look for more resources to get the information that I really need to know.

I used this book mainly for the practice tests. I thought that the summaries in this text were a little too short, and not as detailed as the Cliffsnote study guide.

The book is new.The shipment fast and the content of the book precise,concise and very useful. I am very glad of having it.Thank you.
