Customer Reviews

Nancy E. Schwab has been creating and designing nuno felt for the last ten years in San Francisco. Her books are based on a daily blog that has hundreds of daily readers. Her focus is on how to nuno felt better and faster using the latest tools, materials and shortcuts based on some of the newest trends in this ever-changing, endlessly fascinating fiberart known as nuno felt!

Why the 1 star? I want to be fair, the advise in this book is very good and she shares wonderful tips and tricks of Nuno felting. However it is not beyond the information that you could find on any good felting blog or even a Google query. In addition this book is absolutely and totally overpriced. For close to $30 one expects a hard cover with stock quality photos and step by step instructions. Instead in reads like a PDF with minimal formatting and the very few pictures it contains are very poor quality and it is difficult to make out the colors and designs. I cannot tell you how disappointed I was.

The book is full of great information, I wish it had more illustrations and I thought the price was way too much for such a slim paperback compared with what you can get for that price , but if you are in to it the author has put all her knowledge out there.

I have collected my share of "how-to" books on felting. This is by far the best and is written simply with a very easy hands-on approach. I love how she tells you all of the things to avoid pitfalls. This book helps you cut through all of the words and get into the craft:)

Terrific tips and technique ideas!

Great book

Pretty good book

s book is an outstanding guide to Nuno Felting. It is filled with specific tips to make your process go smoothly. I read it prior to taking a Nuno Felting Class & it made it the class so much better because I was already familiar with terminology.

There are some wonderful tips in here for the beginning and intermediate student. Worth checking out (and on the plus side it is an e-book!).
