Synopsis

This is a bibliography on West Africa which covers the years up to 1988 and seeks to play a double role as: firstly a tool for scholarly research in the field of agriculture, which is an economic sector vital for the growth of the general economy of West Africa, and, secondly a teaching aid for those who may require such an instrument in agriculture and related fields. Areas covered include: agricultural finance; capital; credit; agricultural labour and rural manpower; environmental economics; human resources development; agricultural products; demand, supply, and prices; land tenure; marketing; public policy and programs; technological change; and socio-economic research. --This text refers to an alternate Hardcover edition.
