Synopsis

PRACTICAL PREPPING: NO APOCALYPSE REQUIREDÃ Â is a light-hearted, instructional look at practical readiness concepts that nearly ANYONE can embrace--without seriously interrupting your life or draining your bank account.This isn’t a book about ditching the suburbs for a heavily defended, self-sufficient compound in the mountains. We explore practical first steps YOU can takeÃ Â to prepare for the disasters YOU are most likely to experience. Few people want to spend an inordinate amount of time and money preparing for something that is unlikely to happen. Neither do we! No Apocalypse Required to read this book.Randall S. Powers and Steven Konkoly offer a layered, foundational approach that can be tailored to YOUR circumstances and motivation level. We think you’ll be surprised by how little time, effort and hard-earned cash you’ll need to put intoÃ Â PRACTICAL PREPPING

Customer Reviews

A lot of rambling but didn’t find much meat in the book.

Some worthwhile ideas. Too much repetition. Too many words to say what he wants us to understand.

Another great story line with honest information that grabbed my attention

No Nonsense, common sense, informational NOT hysterical.

This book is very informative. It goes into great detail and us definitely a good starting point in your preparedness.

Excellent introduction! Very logical in its approach to the problems that could happen. Well written. Awaiting Book 2!

This is chock-full of information written in an entertaining style, making it an easy, informative read. I particularly appreciated the lists of items needed and the reasoning behind them. The "rule of threes" is great advice!

A very down to earth perspective of getting started in prepping. What needs to be considered and in what order.
