Synopsis

The Pocket Pharmacopoeia for the Power User! Tarascon Pocket Pharmacopoeia 2010 Deluxe Lab-Coat Version is an expanded version of the Classic Shirt Pocket Edition. It contains more drugs (over 100 are new), evidence-based off-label indications for adults and pediatric patients, and more tables. This essential resource also contains a new H1N1 table with CDC recommendations on the H1N1 vaccine and influenza antiviral drugs, separate sections for warnings, adult indications, pediatric indications, and notes.

Customer Reviews

I was very shocked when I received this larger book. Some of my classmates had the pocket version and I thought that's what I was getting but I was very happy when this came. It has a little more information in it than the smaller version and I got it for the same price as I would've paid for the smaller version. Very satisfied!

I've had older versions of these for many years- always very compact and fit into lab coat easily. Yes, this one will fit into your lab coat but it is more the size of a Sanford antimicrobial guide than the usual pharmacopoeia that I'm used to.

this is an easy book to use. it's also small enough to carry around in your pocket. good good good

If you’re a medical student, you NEED to have this book in your coat pocket. It also gives out dosages and mechanism of action.

this helps me a lot during peak hours to find new drug info on the market. thank you. thank you

I have used this book all throughout residency and now in private practice. It is an excellent reference. I rely on it to give me up-to-date drug information for treatment of my patients.

I’m a PA and I reference this book everyday! Perfect for checking dosages...definitely recommend for all medical professionals!

It is a good reference but don’t expect to get a mechanism of action or details on how it effects the body.
