Synopsis

As featured on OprahÃ¢â ¬â„¢s Ã¢â ¬Å“Super Soul Sunday,Ã¢â ¬Â• the classic bestseller on a true case of past-life trauma and past-life therapy from author and psychotherapist Dr. Brian WeissÃ¢â ¬â •now featuring a new afterword by the author.As a traditional psychotherapist, Dr. Brian Weiss was astonished and skeptical when one of his patients began recalling past-life traumas that seemed to hold the key to her recurring nightmares and anxiety attacks. His skepticism was eroded, however, when she began to channel messages from the Ã¢â ¬Å“space between lives,Ã¢â ¬Â• which contained remarkable revelations about Dr. WeissÃ¢â ¬â„¢ family and his dead son. Using past-life therapy, he was able to cure the patient and embark on a new, more meaningful phase of his own career.

I have always been curious about past lives I may have lived. This book delves into past lives of a patient through hypnosis by her doctor, done very gently and scientifically recorded. They explain

reasons for unnatural fears and how understanding can alleviate those fears. I don’t believe it takes away from Heaven and God. Just ads a new dimension of understanding.

A true and believable story of a Psychiatrist’s patient who was guide through her past live to heal her emotional wounds. From it and other works I do believe in reincarnation and I plan to read more of his works.

This came promptly and in good condition. I listened all the way through. I’ve read the book several times and enjoyed listening to the "high points" in this rendition of the book. I was disappointed that it was a less the full reading of the book, though.

A book to dwell on about the meaning of life and death and what we are to make of this whole process....

This book is amazing. Not only does it talk about past life regression and teaches us many valuable things, but it also is written by a scientist, a doctor which gives it so much more credibility. It is fascinating to read it and discover what can possibly exist beyond the realms of human everyday closed mind. This book by being so scientifically based truly opens up possibilities of countless human existence and principles of reincarnation. I am reading it over and over again, and it will truly assist those who are on their spiritual path.

An intriguing journey into what it may be to be human and beyond. Still pondering the implications of this type of reincarnation, this healing modality and what the MASTERS have to say to us.

After doctors "lost" me for over a minute I remained in a coma for 8 days and in ICU for 6 weeks after a car accident in 1982. After coming out of the coma, I began to have a recurring "dream." The "dream" was, of course, my visit to heaven - although I didn’t realize this initially.Since then, I have experienced countless "unexplainable" messages, visions and knowledge of things I couldn’t possibly know... Abilities I now have can’t be explained and every single time I speak or travel a person will approach me to say that he or she is "One of my teachers" (word for word). The talks we have had could (possibly should) be my next book...Many years ago I embraced the gifts in order to help as many people as possible but I had given up trying to figure out the ’Whys and Hows’... until I read THIS book.It doesn’t matter what you believe. I believe that the goal of this book isn’t to

change your belief system but to give you a greater understanding of love. Read it with an open mind and an open heart. The possibilities are endless.Most sincerely,Rhonda Spellman

Very averagely written account. Seems so dated when you read it now, without much analysis or narrative delight. In the face of many other books on such topics I wonder why this is till a 'best seller" ? Nothing much in it for me to recommend. Read it as part of a bookclub book of the month, but was disappointed.
