Customer Reviews

Founded in 1947, Hal Leonard Corporation has become the worlds largest print music publisher, representing some of the greatest songwriters and artists of all time. We are proud to publish titles of interest to all musicians as well as music lovers, from songbooks and instructional titles to artist biographies and instrument price guides to books about the music industry and all the performing arts.

I purchased volumes 1 & 2 (used). I'm a keyboardist but can understand guitar transcriptions. So I was kind of surprised to find Green Onions, an organ tune by Booker T & the MGs. Lo and behold,

the organ part was all laid out, note-for-note. Unfortunately, keyboardists are out-of-luck with songs like Green-Eyed Lady, where the keyboard solo has been left out.If you’re looking for faithfully transcribed guitar solos, the books have every bend, hammer, slide, and other guitar nastiness annotated for every song listed.

So many songs! And they are written exactly as they sound. So happy with these books!

A major Kindle flaw is the inability to zoom within a book like this. One first has to long press to select the image on the page then zoom. Then, in addition to having to scroll around the page, one must exit the zoom feature to turn to the next page. It appears there is plenty of white space around the print so it could be larger and easier to read without having to zoom. Either the Kindle edition needs to be re-scanned, or the zoom designed on the top level screen on Kindle (ideally both). Otherwise it’s as good as it’s always been since back in the print edition days with the advantage of being a LOT lighter and smaller on Kindle!

I bought it for a friend who is incarcerated he loves it. He was thrilled to receive it and uses it every day.

Have 3 of these books now. Will continue to buy them. They’re great

I like all these Guitar Tab White Pages - just so much for so little. They seem to be the original published sheet music. Saves getting almost right ones from the various tab sites.

awesome

This book seems to me to be more well suited for a reference volume. It is very cumbersome and of course to be able to use it one needs to be able to copy it’s music. Good sampling of music
