This basic chord book shows guitar tab, melody notation, chord changes by words of the song and all verses. I love it as I’m a raw beginner and even i can play these songs. All chords to a song are presented upfront, so you know going in what ones you have to practice, which helps a lot. I tuned 2 guitars, and a friend and I can practice and play - as she sings and I don’t. Definitely a good learner’s book. Shows strum timing also. If you don’t know guitar tab, this is not a learner’s explanation for that, so use another source to learn - its pretty easy I’ve found. I’m totally non-musical but I love these songs of my youth!

This product arrived in good condition. According to some reviews this book was only OK. Well, I disagree with those people. This book simplifies the chords and makes it easy to start playing the songs soon upon arrival of the book. An excellent choice to learn some John Denver songs.

Book did not show tunes, only chords, words and strumming pattern. Luckily I knew the tunes to some, but others I don’t. Arrived quickly and in excellent condition.

a great book of music to play, my family is very happy. my brother and niece love this book. it is laid out very well and has easy to read print.

Great starter John Denver Book. Got it for my son for Christmas. It has many John Denver favorites. They are easy to play.

I'll rerate it later after I've worked with it for a bit. The songs are between easy and intermediate, depending on skill level and ability.

I recently started playing the guitar again after 40+ years! I have always loved John Denver and Annie's Song!

A large size paperback (9 x 12) featuring a big selection. Brings back old memories!
