Customer Reviews

ITMB Publishing (International Travel Maps and Books) of Vancouver, Canada, has published detailed reference and travel maps of countries, regions, and cities around the world since 1985. The company’s titles include many that are unique or the first of their kind, including many country and city maps of Europe.

this map is perhaps better than nothing but the low price was a clue. it’s a rather large piece of paper (even for a paper map) so is super awkward when unfolded AND the back is blank! the 16th district where i stayed doesn’t make it onto the map...it only covers a bit of 19th/20th to the north, parts of 2nd and 3rd to the east, a bit of the 10th to the south and parts of 18, 7, 16, 15, and 12 on the west.for public transport it only shows the diagram of the U-bahn - surface trams are on the map itself but no diagram...i wanted trams much more often than underground so that aspect was only

partially helpful.my sense when i was trying to use it to find my way around the center was that it might not have every little street marked. yep that's difficult with historic centers such as vienna but that's why most map makers will include a blow up of the center...this one does not.

It's a good map, but it tore quickly. If you are on the move you need one that can handle a little more damage. Also, old town Vienna is a jumble of streets and no map can really help you navigate every street. This one did good, and I was able to locate myself pretty easily, but there is so much to see there you really need a map with a large blow-up of the downtown section alone. All that said, the price is what led me to it and for the price it is great.

This is a great map! Highly recommended, for those who still use such things instead of GPS or apps.

very good map except that it is a bit old with inaccurate bus/tram routes.

It was useful
