Customer Reviews

Book by Hoven, Ray

This is a 111-page book which contains maps of all (as of 1997) the recreational bike trails in Wisconsin. The basic organization of the information is: Southern Wisconsin; Central Wisconsin; Northern Wisconsin. Within each of these three categories, the trails are listed by county. Users get to see the length of the bike trail, the effort level (easy, moderate, or difficult), and a map showing the trail itself, in context with surrounding area and/or roads. There are three indexes: a trail index (by name); a county trail index; and a city trail index.This is a very useful, easy-to-carry book. It’s one drawback is that it contains no information on anything other than the trails. This means no diners, no restaurants, no B&Bs, no inns, no motels or hotels.

As I recreational touring bicyclist (1500 to 2000 miles per year)I have looked at many guidebooks, and have found this series to be the best suited to my needs.This is a map based guidebook. Each trail gets a one or two page layout, depending on the length of the trail. The maps show communities and highways also, so the trails are placed in context.The book also includes several

bonus maps which show how trails are connected, and some linkages using city streets are also shown.This book sticks to its purpose, describing the trails only and not straying into restaurant reviews, hotel listings, etc.Some new trails have been completed in Wisconsin since this book was published, it's age is the only thing which keeps it from rating 5 stars.
