Synopsis

Book four in the New York Times bestselling series The 100. Now a hit TV show on the CW!It’s been a month since the new dropships landed and the rest of the Colonists joined the hundred on the ground. The teens, once branded juvenile delinquents, are now leaders among their people. It should be a time for celebration and togetherness, but a new threat appears before long: a fanatical cult determined to grow its ranks and "heal" the war-ravaged planet...by eliminating everyone else on it.After scores of their friends are captured, CLARKE sets off to retrieve them, certain that she can come to an understanding with these strangers. BELLAMY has a different plan; he won’t let anything--or anyone--get in the way of saving the people he loves. Meanwhile, in captivity and scared for their lives, GLASS falls under the spell of the cult’s magnetic message, and WELLS has to learn how to lead again. Unless the rescue party arrives soon, the teen captives will face a fate more terrifying than anything they could imagine. If the hundred ever want to call this dangerous planet home, they’ll need to put aside their differences and fight to protect themselves and their world.

Customer Reviews

Kass Morgan is the author of The 100 series, which is now a television show on the CW. She received a bachelor’s degree from Brown University and a master’s degree from Oxford University. She currently works as an editor and lives in Brooklyn, New York.

I have enjoyed this whole series. Glad that things ended on a somewhat positive note. So if there is no more after this, I will be satisfied.Funny how all they have the characters from the show on the cover when some of them are not even in the books and some that are in the books are not in the show. I still enjoyed the books and continue to watch the show too.

I love this book series. I started reading it after I stopped watching the TV show in season 3, and I wanted to see how the books matched up. I enjoyed this book (and the rest of the series) thoroughly. I think that it does a better job of establishing a post apocalyptic world than the TV series does.

Definitely more intriguing than book 3. I liked the mystery behind these weird people called "The Protectors"

The book is full of great storylines and it is a very well produced continuation of the previous books. I totally enjoyed reading this book. This was not just another book with the same story as in movie sequels like Hangover it would be the case, but it was completely different things that happened and many surprises.

Purchased for my daughter who loves the 100, she couldn’t wait to read these books.

It truly is different from the show, but I prefer it that way!! Amazing series and I hope for book number 5!?!

grandson enjoyed it

great
