I do all of our encouragement/get well cards at church and i always add little extras to the cards and envelopes. The different butterfly species are richly colored and just beautiful. Each butterfly is numbered (88 total) and if you look on the inside back page you'll see a guide that identifies each one by its scientific name. In comparison to the little dover sticker booklets this larger collection is much more affordable. *** I bling them up just a bit more by dabbing (from my fingertip) a bit of light golden glitter gel on their wings... gives them sparkle & makes them soo much prettier. Hope you enjoy doing these little 'extra touches' as much as me. :)

I can never get enough butterfly stickers, and there's plenty in this brochure-sized sticker book. There's also an index in the back that tells you what kind of butterflies are pictured here. Perfect for teachers, sticker collectors, and people who are way too old to enjoy stickers so much (that would be me.)

great product for the price. Good quality. Utilized for scrapbooking and other projects and all looked very professional and incredible.

Love the life like colors. These butterflies look like the real deal.

My grandsons will be here next week so I hope they like these stickers. Delivery and packaging was fine, but I'll have to write another review when I see how well they're received by the kids.

The butterfly stickers were not cut out to the butterfly, so had white around them. So, not as pretty as it could have been

Very pretty, but I was disappointed that they are made out of paper (not plastic) and have a white boarder around them.

Just what I was expecting! Absolutely love this assortment! Thanks,
