Customer Reviews

Friedrich Engels was born in 1820, in the German city of Barmen. He died in London in 1895 while editing the fourth volume of Capital.Karl Marx studied law and philosophy at the universities of Bonn and Berlin, completing his doctorate in 1841. Expelled from Prussia in 1844, he took up residence first in Paris and then in London where, in 1867, he published his magnum opus Capital. A co-founder of the International WorkingmenÃ¢â ¬â„¢s Association in 1864, Marx died in London in 1883.Robert C. Tucker is professor of politics emeritus at Princeton University and past president of the American Association for the Advancement of Slavic Studies.

A great collection of some of the well known and even a few lesser known works of the intelligent Marx and Engels. An essential book for an introduction to Marxist philosophy and ideology. The range within the collection is impressive and gives a breadth of understanding.

This tome is massive. I needed it for a graduate level class on classical sociological theory. It can be confusing at times because translations from German to English are difficult, but this is still an excellent read to get the full range of Marx’s ideas in his own words. There is also a lot from Engels

but most of it is Marx.

Huge amount of writings by Marx and Engels, neatly categorized and each work has a small introduction at the beginning. Can't go wrong with this edition for anyone interested in Marxism. As far as books go, one of the best purchases I have made.

Very helpful for historical theory.

Great collection of writings of Marx and Engels.

This gives the best most readable collection of Marx's writings. It is just a great, concise, portable sized book. Tucker chose the correct Marx works to include, and edited it all beautifully. It is a keeper!

interesting book

good
