Customer Reviews

Mark Lester is an experienced grammarian, ESL expert, and professor emeritus of Eastern Washington University. He was the founding chairperson of the ESL department at the University of Hawaii, considered one of the best ESL programs in the US. He is the author of more than a dozen books, including Grammar and Usage in the Classroom, one of the most widely used college grammar textbooks in the country. For McGraw-Hill Professional, he has authored Practice Makes Perfect Advanced English Grammar for ESL Learners, McGraw-Hill’s Essential ESL Grammar, English Grammar Drills, and with Larry Beason he coauthored The McGraw-Hill Handbook of English Grammar and Usage.

This is a book I bought for home reference. We BARELY use it, but when we need it, it is an excellent resource.We mostly refer to it when comparing English grammar to how other languages work - the kids are learning Latin, German, and Spanish.Great book to have on hand. Written for English-manguage-learners who need to write. Perfect for quick explanations and giving excellent examples.

Was not easy to follow and not helpful for my purpose. Maybe it would be ok for adults, but was not good for my 6th grader.

This book is by far the best grammar book I have ever read in my whole life. It’s not only tell me about the basic concepts, but also elaborate them in a way that I can grasp intuitively so I truly stay learned.

if you understand the in-depth meaning of verb tenses, you will really know what people are talking about, what they really want to tell you. I think verb tense is the most important grammer amoung any other grammers(noun, adj, prep...), and this book you must read. Because it covers a lot of very detailed stuff about verb tenses, it will make you finally understand the real meaning of people’s talking, movies or tv shows’s dialogue, etc. I like wathching movies and TV series but sometimes I am confused about the dialogues but this book is going to help you overcome it.

Got it for my job to improve the writing skill. There are a lot of practice in this book. It’s difficult to find a guide book just focus on the vert tenses. This little book should be quite helpful!

To verbose, should be more concise

The book is workbook with instructions on the use and application of verbs to making writing a simple and easy.

Very good.
