Synopsis

This revised fourth edition is the ultimate reference source for all postwar American cars. Values have been completely revised through 2002 and exciting new color photos have been added to better illustrate the domestic automobiles produced between 1946 and 1975. This standard catalog also includes the technical specifications, information on vehicle identification numbers, historical facts, and production totals collectors have relied upon for years. Since the first edition was published, this book has become the standard reference resource of all car collectors and enthusiasts. From the publisher of Old Cars Weekly.

Customer Reviews

Excellent!

:)

Husband loves this just-like-new book and plans to build a bookshelf to keep it on!

Just what I expected and wanted -- Thanks Larry

This book is a good reference source for the meaningful information on cars produced through this

period. We are not talking War And Peace, though from the heft of it you might think so. Very dry and factual. It also illustrates why alot of the 70's were a terrible time for cars. It even lists my old plymouth cricket!

If you are a car buff you have to have this book. I own this book as well as the now out-of-print American cars 1805-1942. These are the bibles of car history. No other books have what these have. A real bargain for all the detailed information you get. Strongly recommended.

Pretty comprehensive!

Man I've used this book. You might get more detail from a manufacture specific book, but this book is great if you want good information on a wide variaty of cars
