Customer Reviews

Since the 1973 publication of Storey’s first Country Wisdom Bulletin, our commitment to preserving the arts, crafts, and skills of country life has never wavered. We now have more than 200 titles in this series of 32-page publications, and their remarkable popularity reflects the common desire of country and city dwellers alike to cultivate personal independence in everyday life. Storey’s Country Wisdom Bulletins contain practical, hands-on instructions designed to help you master dozens of country living skills quickly and easily. From traditional skills to the newest techniques, Storey’s Bulletins provide a foundation of earth-friendly information for the way you want to live today.

Mary Twitchell is a carpenter and a freelance writer. She lives in northern Vermont.

This pamphlet is ok, but very simple and limited. If your interest in preparedness is this limited, it may be a good choice for you. On the other hand, if you really want some advice on how to survive

a grid-down emergency, it’s a poor choice.For a few dollars more, I recommend you read Jim Rawles book (linked below). It covers the same material and much more. At the least it will give you some thoughtful reading beyond "buy some candles".How to Survive the End of the World as We Know It: Tactics, Techniques, and Technologies for Uncertain Times

I don’t think I ever ordered this booklet but the others that I have ordered have been disappointing. They don’t go into enough detail so that someone with no experience would benefit. I am not saying this one is that way but some of the others I have bought certainly were.

Great little book

Basic and useful information on your house and what to do for power loses. Information on food, household plumbing, freezing pipers, electrical systems and backup generators are addresses. Well organized, easy to read and understand. Worth the money and a review before you have a power outage. It is oriented toward the cold country, as it worries about freezing pipes etc, and not an overheated house with no air conditioning in Phoenix in the summertime.

Well, I was hoping that this had more like games to play when the power goes out like in storms but it’s more like how to support yourself, family and home without power. Still nice though.

I found this item to be very informative for anyone who wishes to prepare before a storm. There are pages of information for individuals who are not familiar with being prepared as well as stocking up on the right supplies, especially how to acquire water from the water heater inside your home. I would recommend this to anyone who is interested in becoming prepared for a natural disaster; hurricane, tornado, or a power outage.

Good bulletin! Good info and a welcomed edition to our Storey Country Bulletin collection! Cant’ wait till we get more.

I’m giving this book five stars due to the fact that the book is concise and it focuses on the major issues that would affect anyone in a situation where they didn’t have electricity. It even tells you how to defrost your pipes. I received my book quickly, no problem with the seller.
