It's a really different book. Threw me for a loop. Only wished it was better graphics and different pictures. Very repetitive with the pictures no variety. It was cute in the beginning but that's all it really is , a novelty. Coffee table book. You can only color so much in it.

I was extremely disappointed!!!! There's only a few pics on white background then almost the exact

same pics again on a black ground. I wanted something to actually color besides it being a gag gift. There was only about 4 that I would want to color. I will definitely NOT be reordering this.

Not what I expected, the color markers ran through the thin pages in the book. I put in a separate piece of paper to prevent the colors bleed-through. The book didn't have many pages that I was actually interested in attempting to color. I would not recommend this to my friends, I have far better books from that I have been coloring in.

bought this for my adult daughter because she wasn't staying out of my FAR more pedestrian coloring books. Should have bought her some colored pencils too.

Awesome gift for someone with a great sense of humor. I bought a package of coloring pencils to go along with the book. I would highly recommend.

Very disappointed in the "Cocktastic .. colorful cocks!" I guess I was expecting more cock than was printed! Do not waste your money on this item!

I've had this book a few days and began a few pictures, and finished one and I hate to admit it but I'm not impressed with this book. I'm sorry, I really tried to like it, just not into it. Maybe I'll pick it up and try again in a few days...

Wonderful phallic representations. My girlfriend said she was very pleased and amused.
