Synopsis

Prepare for career success with this trusted introduction to the world of health insurance billing and the dynamic, growing field of health information management. A GUIDE TO HEALTH INSURANCE BILLING, Fourth Edition, provides a thorough, practical overview of key principles and current practices, from patient registration to claims submission. Now updated to reflect the latest trends, technology, terminology, legal and regulatory guidelines, and coding systems--including ICD-10--the new edition also features a dynamic full-color layout. The text also includes abundant exercises, examples, case studies, and activities focused on real-world applications, including step-by-step procedures for generating, processing, and submitting health insurance claims to commercial, private, and government insurance programs. An access code for SimClaim interactive online billing software is also provided; this program puts billing skills to the test with case studies that require form completion.

I look forward to having this required book for my upcoming class. It has is in great condition and arrived in time.

This book is pretty terrible. Don’t buy it to help you with coding. Doesn’t explain much at all. The text book answer key has so many errors. It’s extremely frustrating.
