Customer Reviews

Good use of colors and sturdy outsid. Would recommend the company use higher level of cardboard for the pop ups. Kids this age automatically reach for the pop up and can rip it immediately before you even have read the first words. Also would not have used a goose as it's hard enough for a child to discern between a duck and chicken let alone throwing a goose in the mix. Good use of color and animals.

Such a cute book. I love the bright colors. It's a perfect gift for a toddler.

I'm putting the same review for each of these books that I bought. These books are sturdy because the cover and pages are made of heavy cardboard. Each time you turn a page you are presented with a flap that, when lifted, reveals a surprise. The stories are simple and I can see a child interested in reading, learning to read simple words.

Pop-ups tear too easily.

What a cute little pop-up book. My baby loves this book. It’s probably her number 1 favorite cause this is the one she tends to go to the most or first. Bright colors, great images.

Grandchildren loves the pop up books. They love flipping the pages

Beautiful book and a very fun way for my 19 month old to learn colors

I bought this for my 8 month old granddaughter. The colors are very bright & she loves it. I would recommend this to anyone with an infant. She seems to like the pop up books the most
