Customer Reviews

LIFE magazine was founded by Henry Luce in 1936 and chronicled every aspect of the human condition through the end of the 20th century. Gordon Parks is one of the early Life photographers and among the most esteemed photographers of our time. He is also an acclaimed poet, filmmaker and composer. He has published several books with Bulfinch, including the acclaimed Half Past Autumn (1997). John Loengard is a veteran LIFE photographer and a chronicler of LIFE’s illustrious history. He received the Henry Luce Lifetime Achievement Award for 2004 from Time, Inc.

"Life: The Ultimate Picture Puzzle" is the third book in the series of books based on the popular feature in the now defunct Life Magazine. For the most part the puzzles involve two pictures of the same thing, with the second picture having a number of changes from the first picture. The changes can range from simple things like a person added to the picture to hard to spot things like a shirt being a different color. There are also several "cut up puzzles" in which the editors took a photo, cut it into 4, 6, 12 or 18 pieces, rearranged the pieces, numbered them, and you have to figure out the correct order of the pieces to solve the puzzle. There are also some puzzles with six pictures, five of which are identical and you have to find the one that is different. Finally, there are also ten secret

changes scattered throughout the book - changes that aren't listed in the instructions and the answers can be found on the Internet not in the book."Life: The Ultimate Picture Puzzle" is a fun, challenging puzzle book. It has several different levels or types of puzzles - Novice, Master, Expert, Genius, Animals, and Classics - so there is a little bit of something for everyone. If you want to further challenge yourself, the editors give a suggested time limit for solving each puzzle with the harder puzzles having longer time limits. The editors do a good job of putting the puzzles in the right category and putting the right number of puzzles in each category - the Genius category, which can be fiendish, is one of the shortest sections and the animal section immediately following is a welcome relief. The number of changes in the picture varies with each puzzle and I find that the pictures with the most changes are harder simply because it can be hard to keep track of the changes you find. I dislike the cut up puzzles, which I find impossible to solve without cutting up the book."Life: The Ultimate Picture Puzzle" provides hours of challenging fun for solvers young and old.

My granddaughter (age 8) received this for a Christmas present. She thought it was the greatest thing. She said she would have to teach her father how to do them (LOL). It keeps her busy and challenged. She likes puzzles and picture puzzles are her favorites.

I give these as gifts to adult relatives who are hard to buy for. They absolutely love them and look forward to getting new ones each Christmas. They told me that they don't even care if they get the same ones that I got them before, since it's hard to keep track of the issues I've sent and there also aren't that many new ones to send.

very nice

This book contains interesting pictures to be compared so you find differences. It is a nice "sit down" book. I bought it for my Mother, because she is a home-bound person and she needed a change from the crossword puzzle books she also enjoys.

Keeps her busy and the different challenge levels contribute to the fun. She uses a magnifying glass on some of the more detailed images but she is in her mid 70's as well.

Amazing fun. The only problem with these binder editions, especially if you buy them used, is the

bands get bent and then it’s hard to turn the pages. I really wrote in this with a permanent marker then threw it away when I was done. I use these to pass boredom at work. It’s really hard for color blind people as that’s one of the main changes they always do. It’s still a fun way to pass the time.

I bought this book for my 5 year old boy since he is getting into finding challenging pictures. The pictures are old and some are offensive for his age. I would return it if I could but it’s a present for him and I don’t have time to get another one.
