Customer Reviews

JANE R. BURSTEIN taught English at Herricks High School in New Hyde Park, New York, forÃ Â thirty-six years. She has beenÃ Â an ACT andÃ Â SAT tutor forÃ Â twenty-five years, and a Reader for the Advanced Placement English Language exam.CAROLYN WHEATER is a math instructor at the Nightingale-Bamford School in New York City and writes extensively on

standardized test mathematics. She resides in Hawthorne, New Jersey.MAJOR PAT PROCTOR is an Iraq war veteran who has written for the U.S. Army War College Quarterly, Parameters, and Armchair General.

I suggest this to anyone who plans on taking the ASVAB or retaking it. This is everything you need. I would however like to note that the test times have changed for certain sections of the test. I crammed this over the weekend and scored above 110. I studied all Math sections and some of the English sections to familiarize myself with it. I do suggest this to everyone. If you have two weeks or more, take the time to do it. If there is something you don't understand, go over it. Pay close attention to the last two sections in Math. Most of the math portions of my test dealt with Geometry and Algebra and some fractions and a combination of all for a problem. I'm not saying to just study those sections since every person will have a different version as the CAT-ASVAB will cater to your answers. Good luck. This product was deffinately worth my money!

Helped me a lot on my AFQT and ASVAB! Has a lot of good refresh on math, reading, and all sorts of stuff. Very simple with a lot of good practice test. 5/5.

Great book! great problems with easy to follow explanations. And the practice tests are great.

This book is very helpful and giving me better understanding with math word problems by dissecting them piece by piece.

Really explains everything very good investment.

We only had a week to study, but got a great score. We were able to see where we needed to focus. Highly recommend

Good product

Awesome book, great for studying with a short time schedule!
