Customer Reviews

Aided by photographs and art reproductions, this work sheds compelling light on historical and religious issues. Ages 11-up. Copyright 1992 Reed Business Information, Inc.

"Sheds compelling light on historical and religious issues." --Publishers Weekly

This remarkable book brings to light what was going on behind the scenes as the Spanish monarchy prepared to hire Christopher Columbus to invade the Western hemisphere. And it's possible they paid for Columbus' trip by commandeering the wealth of Spain's Jews. This is about the history of Spain's Jews, when they were accepted and when they were persecuted, who held them in awe and who felt intimidated. Who rose to power and who got kicked out of the country. I especially loved it because it told a wholly different story than the one you hear in grade school. Loaded with information but simple enough for a grade school student to understand.

This is a children's book, but I don't know where else you can find out about this stuff.

If you want a concise, reasonably accurate history of events leading to the 1492 expulsion of Jews

by King Ferdinand and his famous Queen, as well as a tracing of what it triggered on through to settlement of New Amsterdam, then this is for you.If you want details and lengthy explanations, then use its bibliography for finding those references.A good way to open discussions with middle school through adult readers.

Easy and fantastic read. I learned a ton.

Very interesting content and very easyÃƒÂ¢Ã â ¬Ã â to read.

So much of our history gets written out for fear of truth being exposed. I believe this is a great piece of our history that must not be forgotten and many a lesson can be learned from it. I homeschool and I am using this to bring my children to a full understanding of history and a deep appreciation for truth.

Enjoyed it

Such a great book!
