Ron and Sherry Palmer are parents who fought a years long bitter battle to remain equal parents with equal time and equal rights to their children. They have used attorneys when possible and

successfully argued to the court themselves when necessary. They protected their rights against all odds. They are sharing with you what they learned through pain, loss, and final victory. They wrote this book so that you wouldn't lose your children and have to spend years fighting to get them back. Attorneys, judges, friends and family urged them to just give in and move on with their lives. They were told that nobody can beat the divorce system. They proved that it can be done and they tell you how in this book. No fit parent should ever be without their children at least 50% of the time. No fit parent should ever be relegated to a "visitor" or a "checkbook" in the lives of their children. You have every right to be an equal parent and this book shows how to keep that right. Do you want to know how divorce courts strip fit parents of their rights every day? More importantly, do you want to know how you can stop them from doing it to you? The Supreme Court says you have fundamental constitutional rights as a parent. Divorce courts say you don't. Which one rules in your case depends on how you present your argument. This book destroys the twisted logic used by divorce courts to deprive fit parents of equal rights. It provides the tools for parents to protect their children from losing a parent. Nowhere else will you find so much value for so little cost. If you get this book early you can protect your children from the beginning and keep them from suffering the lose of a parent. If your child is already suffering the lose of you as a parent this book will help you get back into their lives as an equal parent. This book is already helping parents remain parents beginning with mediation and helping all the way through trial. Those fit parents who have already lost at trial are gaining new hope for getting their children back. Don't let divorce be the end of your role as an active parent in your child's life. Get the book now, before you suffer the loss of a child so you can stand up with authority and tell the divorce court to get out and stay out of your private protected relationship between you and your child.

The book is good, but if your situation varies at all, the author will not help you at all, will not answer any questions on how to implement some of the ideas outlined in the book (they claim to actually answer questions). They offer online "clinics" which would be nice, but I think it's sort of crappy, that their book is so expensive, for a PAPER BACK BOOK, yet will not answer a couple questions for free on how to deviate from the books suggestions, given your personal situation.

I can not say enough about how important this book is for anyone thinking of divorce, or involved in a custody dispute. It should absolutely be required reading of EVERY SINGLE JUDGE, ATTORNEY, DCF, GAL, MEDIATOR etc. involved in any way in the family court system. The authors are more knowledgeable and compassionate in their endeavors than any one I've ever

encountered in the judicial system. Firing my attorney and doing my research through them and on my own has been the BEST decision I've ever made!

This book gave my fiancÃƒÂ© and I the hope that we needed to fight for his children. We are still in the middle of the battle, which can be heart breaking and very difficult, but at least we have hope. It is written very well and is not a difficult read at all. I highly recommend this book! It gives you need to cut through the bureaucracy and gives you a fighting chance.

This is the most comprehensive collection of information that I have been able to find on the subject of protecting your rights in divorce. As I began reading the book I would find myself saying "yes that is exactly what happened to me". Each and every step along the way through this book I felt more and more empowered by the knowledge. I look forward to putting it to use to insure that my child really does have his "best interest" considered. That interest is to have both parents in his life to the greatest extent of equality.

Ã Â Please see my video review. Enjoy!

This is a well researched and well written book that gives hope for making changes and winning your case, has many excellent arguments to use and has given me hope in my own case. In fact it has been a very educational read and even my attorney was unaware of some of the points made in the book. Most importantly, the authers continue to educate on their website. It's clear they have a passion for making much needed changes and they have been a huge resource.

This book is a goldmine of case law and legal foundation on the subject of parental rights. I read this book cover to cover, took what I learned into my own court case, and prevailed. Highly recommended and a great investment!

WOW!! I got this book and within the first few chapter's my heart was leaping out of my chest at the new hope I was feeling....I am encouraging EVERY single person who is being subjected to the corruption in the family court system to purchase this book fast! Once people begin reading it and start spreading the word it's going to sell off the shelf! My pages are full of highlighted areas already! I can't say this enough...please get this book! Thank you Ron and Sherry Palmer for sharing your knowledge! I pray that it's not too late for us to fix the damage that's been done! I don't care what it

takes I will go to no end to see justice prevail and my fiancÃƒÂ©'s children restored to him! Right now my fiancÃƒÂ© is in yet another holding pattern...its been nearly two years since filing....he was treated like a common criminal, yelled at by opposing counsel and told to "prove why he should be given 50% custody"- the General Magistrate said she didn't care that he didn't have a car that worked but he BETTER find a way to pay! She cheated on him and he gets punished!! He pays her nearly 80% of his pay rendering him impossible to survive without my help but then I am a hinderance because my income gets added which makes him have to pay more. So in essence it's ok for him to be homeless, carless, hopeless but he BETTER pay up! So, between child support and alimony be pays $2400 per month and sees his kids two to four hours per week with every other weekend.....and he's such a loving, caring, sensitive, God fearing man! I raised my children alone and I would have given ANYTHING to have a daddy for them like him!! Now, we've been waiting 13 weeks for a final judgement that was supposed to take 3 weeks and still no additional time with the kids! UGHHHHHH....so, yes this book is offering HOPE for the HOPELESS! *wipes away her tears*
