I was skeptical at first when our pastor asked us to get this workbook. However, after completing this workbook with my fiance, I felt it was so beneficial because it brings us topics that we never discussed.

Many questions, good both if you've given a lot of thought to it already, or barely have thought about what marriage really is. Liked it a lot, but would advise to handpick what's relevant to talk about. If in doubt, do it. Don't run away from the hard questions ;)

Norm Wright's handbook for pre-engaged couples is one of the best ways to help a couple prepare for marriage. I've found that the longer I've been married, the more I appreciate all the different topics these 12-14 chapters cover. I use it for pre-marriage counseling and have found that this book is a great discussion starter.

The gold standard in marriage counseling. We went through ourselves before getting married in 2003 and we've used it to counsel a sister and sister-in-law and their husbands to be. Thorough, insightful, and well organized.

Great book!

I strongly recommend this book for couples as they prepare for marriage. This was required by our church along with counseling. Awesome resource!

This is the best marriage counseling book on the market! I have purchased for 5 couples and they enjoyed and learned a lot through out the sessions!

Probably the best a most comprehensive marriage preparation I have worked with. Yet it is very practical and useablefor couples and marriage mentors
