Customer Reviews

Stick with it! This book is good but can be a bit confusing at times. Overall I was hooked by the final few chapters and look forward to what happens to Kat, Reese, & Blaine.

Good story, fast paced, interesting characters, and extremely well crafted. Look forward to the second book.

An awesome addition to the YA paranormal romance genre. This book was incredibly original and was completely unforgettable. It kept me at the edge of my seat, and it constantly surprised me. I'd highly recommend this book. I'm super excited to read on.

Could not put it down! Great read! Thanks for letting me read the first book for free! I will be recommending this to everyone!

This was a fun read. It was good enough to make me want to purchase the second in the series.

Read this in three days and immediately bought the second in the series.

Great book, a lot to take in & makes you want more. Like demons, magic, and high school drama??? If so, this is the perfect book for you!

I felt like the plot line was all over the place, but could have been pretty good. The story could have been captivating with more thought, planning, and character development. Word choices were misused, such as annunciated--which should have been enunciated as one example, and the references...tad too overkill. For me that drives me to put books down generally. Just needs a little refinement.
