Customer Reviews

Got this for my 12 yr old nephew's birthday. It's right up his ally!! The pics are fun without being cheesy or gorey. There's a funny description of each character which helps give them some depth and personality. There are some very simple beginner projects, and some good advanced. The book itself is colorful and well made. Overall, completely worth the money!

I purchased this for my 9 year old son. He has shown an interest in drawing and asked for art supplies for Christmas. He has thoroughly enjoyed flipping through and looking at the different options. There are some beginner projects on up to the more skilled artist. Happy with the purchase!

Great, great gift for boys who love warrior and anime type characters. Was perfect for 3rd grade boy.

This was a Christmas gift for my stepson and he has really enjoyed it! The step by step instructions are great.

replacement for library book that got lost...

So fun to watch my son use this -- little advanced for an 8 year old, but great options.

My son thought that it was "cool"

I would recommend this for any boy who is into drawing! My grandson goes through a ream of paper (at least) a week! He is having a blast with all of his drawing books that I bought from . They all arrived in great packaging and they were just as promised!
