## Customer Reviews

Having a map in the glove compartment always is a good plan B, even in the smartphone era, since modern technology can fail sometimes. When my GPS didn't catch the signal in an area I wasn't familiar with, I was glad to have this map with me.It covers big part of Rhode Island, way more than expected. However, the writing is tiny. Even with my glasses I needed an eternity to find the street on it. As an addition to a GPS the map is okay. But if you want to use a paper map frequently, I strongly recommend choosing one with larger writing.
