## Book Information

Hardcover: 858 pages

Publisher: Prentice Hall (January 15, 2006)

Language: English

ISBN-10: 0132012359

ISBN-13: 978-0132012355

Product Dimensions: 8.7 x 1.4 x 11.1 inches

Shipping Weight: 4.5 pounds

Average Customer Review: 4.5 out of 5 stars 9 customer reviews

Best Sellers Rank: #91,586 in Books (See Top 100 in Books) #20 inÃ Â Books > Teens > Education & Reference > Science & Technology > Earth Science #262 inÃ Â Books > Textbooks > Education > Secondary Education #9085 inÃ Â Books > Education & Teaching

## Customer Reviews

NOTE: Look more carefully as the books in Hard Cover and Paper Back items are different. I ordered thinking that I am ordering a text book, but received a workbook (from paperback tab).

Great condition!

Perfect

I purchased this paperback workbook to use in our homeschool studies. The workbook contains a variety of exercises--fill in the blank, true/false, unscramble the vocabulary word, circle the correct answer ---to check comprehension. The workbook creates a good study guide for tests and quizzes. A number of graphs are included to try to teach sequential thought, identify cause and effect, and teach outlining. I don't think this workbook is very effective in elucidating higher thinking. It is, however, a great workbook for demonstrating that the material has been read and that basic

concepts are in place. I have been able to hand it off to my jr. high aged child and he is able to work through the material on his own without help. This book would be a nightmare for my dysgraphic child with visual processing issues. It's all handwriting and there's bleedthrough of lines on the opposite side of the very thin page.

This thick Book is in great condition.We received it timely.It makes it easier so my daughter need not carry this heavy book back & forth between school and home.Totally worth it.

My grandaughter's book from school was in such bad shape,I got this one and it's in much better shape, it is a big help.

The book was in great shape and it was delivered when promised.Using this book as a second book- too heavy to bring home in a backpack every night.

needs to offer current versions of texts, which are subject to change as new scientific breakthroughs are made.
