Customer Reviews

Helpful and succinct. Turns out the Runes have a bit of a sense of humor. After not touching them for years, my first draw of one rune turned out to be my last name.If someone asks ’Do you really think the Runes have *Power*’, I would simply respond - ’Do you really think the letters of the alphabet have ?’This book just points and reminds, you will need supplements for a fuller understanding.

This book was very easy to follow and learn the Runes. There are other books that I looked at but for a beginner I wanted to start out with no complications. This book I would say is thorough enough for expert reference.

Jennifer will flex the muscle of your intuition, taking you inside yourself to places from which you can leave a more whole person. This book can serve as a tool for spiraling into a deeper understanding of self and your relationships with the world , or for pure entertainment. I will be purchasing additional copies for friends, and will be looking for the kindle edition.

This is a great book for beginners and elders of runes castings. Information is set out in a very logical way that makes casting so much easier. I like that at the start of every rune is a cheat sheet, of a sort, where info from 5 different sources are gathered for a fast reference.

I tried several other books but this one was wonderful. Two other books were recommended to me but they still lacked the vital information that this one offered. I think that anyone looking to further their knowledge of runes should get The Runes Workshop it contains everything you need.

hands down the worst book on runes i’ve ever read--and i’ve read lisa peschel’s "the runes", ha! (by the way, this book lists hers as a source; all credibility eliminated!) spend your money on a better book--this one is half blank pages for "notes" anyway.

I am not sure how I feel about this. On one hand, I do like the information she gives on how to Galdr each rune, but as far as her interpretations go, I prefer Edred Thorrson.

I gave copies of this to my wife and mother after a glowing recommendation from a friend. They have both enjoyed and been intrigued by what the book and the runes have shown about themselves. I would highly recommend to anyone who is looking for a guidance or their path going forward. Very intriguing.
