Customer Reviews

This is a great book for nursing psychiatric courses! I loved the organization of this book, the informative scenarios and the sidebar key ideas from the text page after page! I found the summaries at the end of the chapters to be extremely helpful and condensed yet effectively

describing the chapter concisely enough without leaving open gaps. I recommend this book, the information is there, it’s a great era even if you think you may not enjoy or be into psychiatry. It’s an overall good read and helped me ace my exams!

It is great book

Great Product, as described.

Om
